For more information, see [Enable or disable whiteboard on ODB](#), [Microsoft 365 organizations and Office 365 groups that use the Microsoft Teams Meeting Broadcast feature](#), the [Office 365 Privacy settings](#), or [Group Chat](#), can also share their public channel or group. This section describes how to connect and configure a sharing group for the DfO Public Channel for the DfO cloud. For information about connecting to the channel, see [Connect to the public channel](#). For more information about configuring a public channel, see [Configure a public channel](#). For information about sharing Office 365 groups, see [Share an Office 365 group](#). To connect to a channel, you must be a member of the DfO account organization. If you don't have access to a channel, contact your DfO account organization representative. A sharing group is used to share content from Office 365 groups and Office 365 meetings with the DfO Public Channel. You can: [Add other users to the sharing group as members](#), [Modify a sharing group's settings](#), [Share documents, links, presentations, or the DfO Public Channel with the sharing group](#). Note: To edit a sharing group, you must be a member of the group. To connect to a sharing group, you must be a member of the DfO account organization. If you don't have access to a sharing group, contact your DfO account organization representative. [Create a sharing group](#) This section describes how to create a sharing group, and then manage the permissions of the group and members. Note: You must be a member of the organization for which you are creating the sharing group. Also, you must have admin permissions to the DfO account organization. [Share documents, links, presentations, or the DfO Public Channel with the sharing group](#) To add a user as a member of the sharing group, or to edit a user's permissions, go to [Settings > Sharing Groups > \[Group Name\] > Members](#). To share a document, link, or item with the sharing group, go to [Settings > Sharing > \[Group Name\] > Sharing](#). Note: To edit the settings for a sharing group, you must be a member of the sharing group. [Delete a sharing group](#) Note: This operation deletes all the shared items in the sharing group. This operation cannot be undone. To delete a sharing group, go to [82157476af](#)
